

## SILVER AND GOLD SALTS

Silver and gold salts for electroplating and research applications.

- Silver Cyanide  $\text{AgCN}$
- Potassium Silver Cyanide  $\text{KAg}(\text{CN})_2$
- Potassium Gold Cyanide  $\text{KAu}(\text{CN})_2$
- Gold Sulfate  $\text{AuSO}_4$

## SILVER SALTS, CHEMICALS, POWDER, AND FLAKE

Reliable's silver nitrate has gained broad industry acceptance by customers requiring ACS grade, high purity, dry product. Our silver carbonate and oxide are used in specialty industrial applications where purity and consistency are critical. Our silver powders and flake are used in paste, ink, and specialty lubricant preparation.

- Silver Nitrate  $\text{AgNO}_3$ 
  - Powder and Solution Forms
- Silver Oxide  $\text{Ag}_2\text{O}$
- Silver Carbonate  $\text{Ag}_2\text{CO}_3$
- Silver Powders
- Silver Flake
