

SILVER WIRE

- Fine Silver 99.99%
- Sterling Silver
- Coin Silver
- 75Ag/24.5Cu/0.5Ni
- Custom Alloys

Reliable Silver fabricates fine silver wire from 99.99 percent pure silver using a proprietary extrusion process. We also produce wire in different silver alloys to customer-specified dimensions, mechanical properties, and composition. We use proprietary processes and techniques to produce material of precise and uniform grain structure to ensure consistent physical properties throughout your product. Reliable's custom wire will perform in your most demanding machining and forming processes.
