From: Reliable Silver Corporation

Subject: Acquisition of Vincent Metals Corporation by Reliable Silver Corporation (RSC)

Date: 28-May-2026

Reliable Silver Corporation (RSC) is pleased to announce the acquisition of the Vincent Metals Corporation. Rhode Island-based Vincent Clad Metals is a specialty manufacturer of custom-engineered, cold-bonded composite metal strips for the electronics, automotive, and medical device industries. Since 1987, Vincent Clad Metals has built a strong reputation for technical expertise in composite cladding, including platinum clad niobium anodes, clad metal components, and custom metal composites.

The Vincent Clad Metals team will continue to support the transition and RSC is committed to ensuring a smooth ownership transition with minimal disruption. We are also grateful to Vincent Clad Metals' outgoing ownership for the business they have built and for their continued support.

About RSC: For over 40 years, RSC has manufactured precious and specialty metals that play a critical role in electrical contacts, low-E glass, medical products, semiconductors, and emerging technologies such as fusion energy. The acquisition of Vincent Clad Metals expands our capabilities and the range of markets we serve.

Please always feel free to reach out to us with any questions. Address all inquiries to Sales@reliablesilver.com.

Sincerely,

Arnold Seapan
Chief Operating Officer
